THE MULTIPLE CHALLENGES THE RESEARCH ECOSYSTEM IS FACING

$20B

Is the approximate annual cost of failed clinical trials, which is essentially wasted every year.

(Applied Clinical Trials)

80%

Of clinical providers state that they "lack the ability to collect accurate data" from clinical trial participants.

(Tufts Center for the Study of Drug Development)

40%

Of participants become non-adherent to treatment protocols after 150 days in a clinical trial, due to lack of communication with the researchers.

TRIALME IS A VERSATILE PLATFORM
FOR CLINICAL STUDIES PROVIDERS

Pharma Companies and Researchers

Allows to quickly re-engineer protocols and receive quality study data while meeting strict regulatory requirements.

Health Care Providers

Offers the perfect solution for providers who seek to conduct clinical trials and manage their patients simultaneously, via a joint database with built-in inclusion and exclusion information **(exclusive capability to IMNA Solution)**

Participants and Caregivers

Allows to self-manage chronic conditions, gain insights into the personal health journey, and share them with care teams.

GAME-CHANGING, PROVEN,
AND MEASURABLE RESULTS

IMNA's pilot, wellness and chronic pain facility, 500 users.

60% Increase in Patient Engagement

34% Increase in Patient Satisfaction

155K Increase in MMR

HEALTH DATA IS PROTECTED
LIKE NEVER BEFORE

Award-winning, **patented communication technology**, preventing breaches and cyber attacks.

Fully certified by strict international HIPAA and GDPR standards.

ABOUT US

IMNA Solutions is a digital health SaaS company that developed a multi-facet modular solution for data-driven tailored care.

Our platform is being implemented and used by leading strategic partnerships, medical institutions such as Israel's two largest HMOs, and private customers.

Looking forward to hearing from you!
